

GREEN THUMB PLANT DRIPPER

ENL 067 0805 06

Project Supplies You Will Need

1 Ball® Quart Regular or Wide
Mouth Jar

1 Ball Regular or Wide Mouth
Dome® Lid (same size as jar)

1 Ball Regular or Wide Mouth
Band (same size as jar)

1/4-inch Wide Cotton Cord
(approximately 1 yard)

Paper Punch

Step 1, Getting Started: Read all instructions for the Green Thumb Plant Dripper before beginning project. Assemble all supplies.

Step 2, Preparing the Jar: Measure the distance from the soil in the planter to the bottom of the Jar. Cut Cotton Cord the length of this measurement plus six inches; set aside. Punch a hole in the center of the canning Lid using a Paper Punch. Soak Cotton Cord in water until thoroughly wet then gently squeeze out excess water.

Step 3, Contents of Jar: Thread Cotton Cord through the hole in the Lid. Fill the Jar with water. Place Lid on the Jar with one end of the Cotton Cord touching the bottom inside of Jar. Adjust the Band onto the Jar.

Step 4, Finishing Touches: Place the other end of the Cotton Cord in the planter. Water will wick through the Cotton Cord to keep the plant moist.

Let the Green Thumb
Plant Dripper do the
work, while you enjoy
your deserved time away!
