

FROSTY SNOWFLAKE LANTERN

ENL 078 1005 12

Project Supplies You Will Need

1 Ball® Wide Mouth Quart Jar

1 Ball Wide Mouth Platinum Band

Frosted Glass Spray Paint

Assorted Snowflake Stickers*

1 (24-inch) Piece of Silver 14 Gauge Copper Wire*

Handheld Hole Punch

Votive Candle and Holder

Additional craft supplies to have on hand: Paper towels, rubber gloves and newspaper.

*We used vellum snowflake stickers from STICKOPOTAMUS® and DCWV® and wire from Wild Wire™.

Step 1, Getting Started: Read all instructions for Frosty Snowflake Lantern before starting. Assemble all supplies.

Step 2, Preparing Luminary: Lay Jar on newspaper in a well-ventilated area. Put on rubber gloves. Spray entire Jar with two coats of Frosted Glass Paint. Allow to dry between coats. (Paint will appear clear at first but will dry to a frosted finish.)

Step 3, Decorating Luminary: Apply Snowflake Stickers at random onto Jar. Using Hole Punch, punch holes into opposite sides of the Band. Place one end of Wire through one hole; bend end of Wire to secure. Form Wire over into a handle and place other end through other hole in Band. Trim to desired length. Bend Wire end to Secure. Screw Band onto Jar. Place Votive in Holder and place in bottom of Jar.

Fun Project Idea:

Paint Jar with pale blue glass paint before spraying on Frosted Glass Paint to make the luminary glow even brighter. Or, spray paint in swirls instead of one even coat for a wintry flair.
