Orange Felt

1 (9-inch) Square
Red Felt

White Embroidery Floss

14-inch Decorative Rope

Additional craft supplies to have on hand: Scissors, paper towels, newspaper, plastic putty knife, needle, hot glue gun and hot glue stick.

Fun Project Idea

Tie bells around neck to create a Snowman “Doorbell”

Step 1, Getting Started: Read all instructions for Snowman Doorknob Hanger before starting. Assemble all supplies.

Step 2, Assembling Snowman Body: With the plastic putty knife, apply a 1/8-inch thick layer of snow textured paint to the decorative side of all three lids. Gently press two black buttons for eyes into textured paint on one regular lid. Gently press three black buttons vertically into other regular lid, leaving approximately 1/2-inch from the edge. Let textured paint dry.

Step 3, Finishing Touches: Glue lids together, starting with the wide mouth lid as the base snowball. Cut a top hat and mouth from black felt, a carrot nose from orange felt and an 8-inch scarf from the red felt. Using needle and embroidery floss, sew red button on hat. Wrap scarf around neck and glue hat, nose and mouth in place. Glue a rope loop to backside. **Note:** Hot glue guns should only be used according to manufacturer's instructions. Please read all handling and safety instructions and be especially cautious when using around small children. Craft glue is a safe alternative.
